

ISO 14001:2015 (EMS) Internal Auditor Training Programme Outline

Course Overview

ISO 14001:2015 is an international standard for environmental management systems (EMS). It provides a framework for organizations to establish, implement, maintain, and continually improve their environmental performance. The standard emphasizes a systematic approach to identifying and managing environmental aspects, legal compliance, and setting objectives for sustainability. ISO 14001:2015 is applicable to businesses of all sizes and sectors, helping them reduce their environmental impact, enhance efficiency, and demonstrate a commitment to environmental responsibility.

ISO 14001:2015 Internal Auditor Training is designed to equip individuals within an organization with the skills and knowledge to effectively assess and audit the environmental management system (EMS) based on the ISO 14001:2015 standard. The training covers key concepts, requirements, and auditing techniques to ensure participants can conduct internal audits and contribute to the continual improvement of the EMS. It typically includes understanding the ISO 14001:2015 standard, audit planning, conducting audits, and reporting findings. This training helps organizations maintain compliance, identify areas for improvement, and enhance the effectiveness of their environmental management practices through internal auditing processes.
