CQI-8 Layered Process Audits Guideline Training Programme Outline

Course Overview

CQI-8 Layered Process Audit (LPA) Training focuses on a structured approach to auditing manufacturing processes to ensure consistency and adherence to quality standards. This training teaches participants how to implement and conduct LPAs, emphasizing regular audits at multiple levels of management. It aims to identify and correct issues early, ensuring continuous improvement and maintaining high standards in production processes. The training covers the creation of audit checklists, audit scheduling, and effective follow-up actions to drive quality enhancements throughout the organization.

Who should attend?
